Linux/System Administrator • Application Support • Monitoring

SUMMARY

Application Support Specialist with 4+ years supporting enterprise systems in finance and healthcare. Strong Linux administration (Ubuntu, RHEL/CentOS), L1–L2 incident management, and monitoring. Automates routine ops with Ansible/Bash; experienced with web servers (Nginx/Apache), basic databases (MySQL/Oracle), and ITSM tools (ServiceNow/Jira/Zendesk). Collaborative, SLA-focused, and comfortable in 24x7 environments.

KEY SKILLS

- Linux/Systems: Ubuntu, RHEL/CentOS, Bash, systemd, SSH, Nginx, Apache, cron, logrotate, users/permissions, file systems
- Networking: TCP/IP, OSI model, VLANs, ACLs, DHCP, DNS, VPN, OpenVPN, Firewalls; Cisco IOS, Juniper, Extreme Networks, MikroTik
- DevOps/Monitoring: Git, Jenkins (basic), Docker, Kubernetes (basic), Ansible; Zabbix, Grafana, Cacti
- Databases/ITSM: MySQL, Oracle, SQL basics; ServiceNow, Jira, Zendesk; ITIL concepts (Incident/Change/Problem, SLAs)

PROFESSIONAL EXPERIENCE

Codix Bulgaria — Application Specialist (Installation & Delivery)

Jun 2021 – Present | Sofia, Bulgaria

- Triaged and resolved L1–L2 incidents via ServiceNow/Jira for business-critical applications; consistently met SLA targets.
- Performed Linux administration for application servers: package management, service configuration (Nginx/Apache), users, permissions, and log analysis.
- Automated recurring maintenance tasks with Ansible and Bash to reduce manual effort and error rate.
- Implemented and tuned monitoring/alerting in Zabbix and Grafana to improve visibility across services and dependencies.
- Collaborated with development and DBA teams to analyze app issues, SQL/Oracle performance, and deployment readiness.

Netsurf — Network/System Administrator

2020 – 2021 | Bulgaria

- Administered Linux and Windows servers; handled OS installation, patching, and routine maintenance.
- Configured and supported LAN/WAN infrastructure: VLANs, ACLs, routing; Cisco/Juniper/Extreme; maintained DHCP/DNS and VPN/OpenVPN services.
- Monitored network/server health (Zabbix/Cacti), troubleshooted incidents, and escalated to vendors when necessary.

WordPress Freelance — Developer

2018 – 2020 | Remote

- Delivered end-to-end WordPress/WooCommerce projects: hosting setup (cPanel), PHP/MySQL, themes/plugins, performance and security hardening.

VIVACOM — Sales Expert

2015 – 2019 | Sofia, Bulgaria

- Customer service and sales operations; trained new hires; tracked team and store targets.

EDUCATION

- Applied Physics — Sofia, Bulgaria
- SoftUni — relevant courses in software and IT
- Udemy — Linux/Networking/DevOps courses

LANGUAGES

- Bulgarian: Native
